

## About Your TumbleWear Garment

Every TumbleWear garment is manufactured by hand from the finest quality materials available. All garment fibers, whether natural or synthetic, will deteriorate over time. Some fabrics and materials are extremely delicate and require careful handling and cleaning. Improper care or handling may result in discoloration or deterioration of various fabrics and materials. Any irregularities in materials, fabrics, textures and/or beading are characteristics of this garment adding to its natural beauty and in no way should be considered defective.

Combining varying fabrics & colors may result in some slight discoloration. This is a common occurrence with these special materials. Perspiration, deodorant, chalk, makeup and other substances may contribute to discoloration or bleeding, often when varying colors meet. Even with proper care & washing some discoloration may occur.

TumbleWear cannot accept returns on orders due to such occurrences. These garment care instructions are provided to help you maintain your garments original beauty and to preserve its longevity.

Thank you!

## Care Instructions for TumbleWear Garments

### Sensitive Color Combinations (Light & Dark)

Garments containing both light and dark colors require careful washing procedures in order to prevent bleeding.

Machine-wash separately on gentle cycle in a large volume of cold water. Remove immediately and tumble dry on low setting.

**Do Not:** Hand wash, hang dry or lay flat to dry.

**Do Not:** Use bleach or harsh detergents.

### Foiled or Hologram Fabrics

Garments containing foiled, glitter and/or hologram fabric may dull with wear and repeated washings. Areas that incur abrasion may show some loss of foil. Due to the sensitive nature of these fabrics, these garments require the following washing procedure:

Prior to washing, please turn the garment inside out. Machine wash separately in cold water using the gentle cycle or hand wash. Remove immediately and tumble dry on low or no heat setting or hang to dry.

**Do Not:** Hand wash, hang dry or lay flat if the garment contains a sensitive color combination.

**Do Not:** Use bleach or harsh ingredients.

### All Other Garments

Machine wash separately in cold water on gentle cycle or hand wash. Remove immediately and tumble dry on low heat or hang to dry.

### Important Note

Fabric manufacturers strongly recommend using Ivory Snow liquid detergent when caring for their materials.
